

The Flow System – Advanced Distributed Leadership (DL-M5)

Syllabus

Description of Course

This course is where participants combine all of the information and knowledge gained from the previous four master distributed leadership courses. Participants will have the opportunity to create a distributed leadership model that works for their place of work. These models will be contextual and applicable to meet the specific needs of the participant's organization.

Duration of Training

The Advanced Distributed Leadership (DL-M5) course requires 16 hours of training and can be taken as a two-day in-person training session, an online live virtual class, or as an asynchronous self-paced online training using The Flow System's learning management system (LMS). This course can be taught publicly or privately to any organization.

Participants must complete the training before receiving a code allowing them to take the Advanced Distributed Leadership (DL-M5) assessment for accreditation. The fee for the assessment is included in the course fee for training attendees.

At the master's level, participants will demonstrate an ability to apply the new knowledge and complete an online assessment. The master's level courses' application portion will be reviewed by peers and industry experts in their chosen field.

Participants who attend the training will have two attempts at the Advanced Distributed Leadership (DL-M5) assessment. Participants who wish to forgo the training and jump straight to the assessment may do so but must first buy a code and will only have one attempt as opposed to two for people taking the training. You can buy a code below by clicking 'Take Assessment.'

Objectives of Course

This course will review the material covered in the previous four distributed leadership master courses, will give participants the opportunity to build a distributed leadership model for their organization, and provide a platform for participants to present their distributed leadership mode and to provide feedback to other participant's distributed leadership model.

The concepts and leadership competencies that will be covered in this course are summarized below:

- Multiteam Systems
 - Structures
 - Managing/Leading
- Functional Leadership
- Boundary Spanner
 - Boundary Spanner Competencies
- External Team Support Activities
 - Isolationist
 - Scouting
 - Ambassadorial
 - Task Coordination
 - Comprehensive

Outline of Course

- Introductions
- Overview (TFS, Customer 1st, Distributed Leadership)
- Review of Individual Leadership (DL-M1)
- Review of Shared Leadership (DL-M2)
- Review of Organizational Hybrid (DL-M3)
- Review of Multiteam Systems Leadership (DL-M4)
- Distributed Leadership (review)
- Development of a Distributed Leadership Model
- Participants Present Their Distributed Leadership Model
- Participants Provide Feedback
- Closing Summary for Distributed Leadership

The Flow System Advanced Accreditation

Participants completing the Foundations (FS-1) training (in-person) or the Foundations (FS-1) course (online), or those who wish to only take the Foundations accreditation exam without participating in training or an online course, can take the exam at any time. Participants who complete training (face-to-face or online) will have two attempts at the exam. Participants who wish to forgo any training may do so and pay to take the exam. Participants who skip any training will have one chance to pass the exam. Upon passing the Foundations Exam, participants will receive a Certification of Completion for The Flow System Foundations Course. Once a Certification of Completion for The Flow System Foundations Course has been obtained, participants can continue to any of the Advanced Courses (see Figure 1). The Flow System Training Map can be found in Figure 1 provided below.

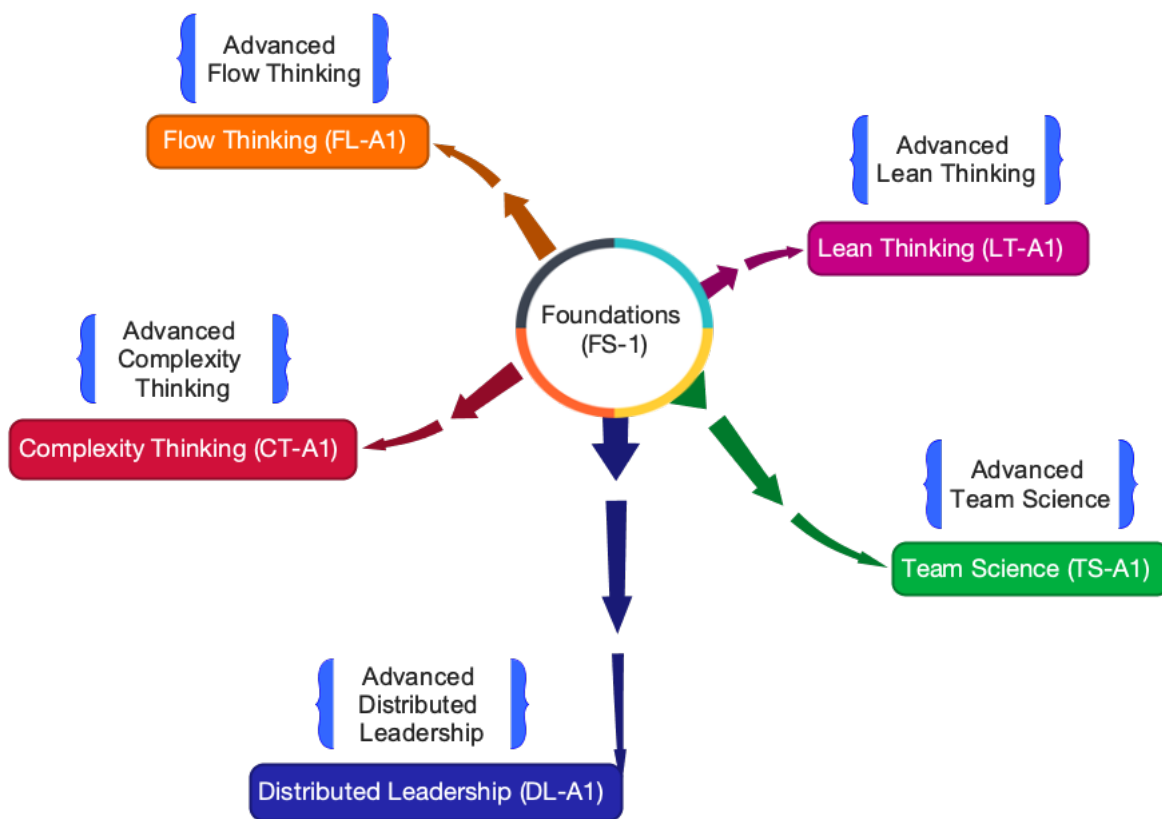

Figure 1: The Flow System Foundations and Advanced Courses

The Flow System Masters Accreditation

There are a total of five master level accreditations to choose from, one to accompany each advanced course. Once the foundations course (FS-1) and the selected advanced course has been successfully completed and the accreditation exam passed, participants can continue to take courses at the master level within the chosen advance track. Participants can only continue to the master level courses after achieving the appropriate advanced accreditation. For example, before taking any of the distributed leadership master level courses (DL-M1 through DL-M5), the foundations (FS-1) and distributed leadership advance (DL-A1) course must first be successfully completed.

The master level courses for the Distributed Leadership track include the following courses:

- Individual Leadership (DL-M1)
- Shared Leadership (DL-M2)
- Organizational Hybrid (DL-M3)
- Multiteam System Leadership (DL-M4)
- Advanced Distributed Leadership (DL-M5)

A master level accreditation in Distributed Leadership will include the following path:

1. Mastery Distributed Leadership Certificate of Completion
 - a. Accredited in the Foundations (FS-1) course
 - b. Accredited in the Distributed Leadership (DL-A1) Advanced course
 - c. Successful completion of all 5 Mastery Distributed Leadership courses
 - i. Individual Leadership (DL-M1)
 - ii. Shared Leadership (DL-M2)
 - iii. Organizational Hybrid (DL-M3)
 - iv. Multiteam System Leadership (DL-M4)
 - v. Advanced Distributed Leadership (DL-M5)
 - d. Pass Mastery Distributed Leadership Accreditation Exam

Courses	Course Completion & Exam	Accreditation
Foundations Course		Foundations Accreditation
Advanced Course Distributed Leadership		Advanced Distributed Leadership Accreditation
Mastery Distributed Leadership Courses DL-M1 + DL-M2 + DL-M3 + DL-M4 + DL-M5		Mastery Distributed Leadership Accreditation

Trainers

The Flow System Foundations Course (in-person) will be administered by the co-creators of The Flow System and /or by certified TFS trainers. The online courses will only be administrated and monitored by the co-creators of The Flow System. All trainers are considered experts in their field of practice/study and have a command of the materials that are presented in The Flow System Foundations Course.
