

WEAK SIGNAL DETECTION - SELECTION (CONT.)

Congruence plan (agreement; how will the stakeholders decide on the best solution?)

Connect the Three Helixes:

Flow can only be achieved when the three helixes are interconnected. To identify how this could occur, the next exercise requires the reader to identify examples of different methods from each of the other two helixes (distributed leadership, team science) that might work well with, or support, weak signal detection. Knowledge of all three helixes will be required to make these connections.

COMPLEXITY THINKING

DISTRIBUTED LEADERSHIP

TEAM SCIENCE

CONNECT THE HELIXES

Select a scenario or problem that would benefit from weak signal detection.
