

### Connect the Three Helixes:

Flow can only be achieved when the three helixes are interconnected. To identify how this could occur, the next exercise requires the reader to identify examples of different methods from each of the other two helixes (distributed leadership, team science) that might work well with, or support, weak signal detection. Knowledge of all three helixes will be required to make these connections.

| <b>CONNECT THE HELIXES</b>  |  |
|---|--|
| <b>Select a scenario or problem that would include a storytelling.</b>  |  |
| <b>Identify three methods from distributed leadership that could work with storytelling and give a brief description about how they complement one another.</b> |  |
| <b>DL Method 1:</b>   |  |
| <b>DL Method 2:</b>   |  |
